

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

January 30, 2003 LB 122

not think there ought the fee increases. During my discussion the other day, I pointed out that we attempt on this floor to get everything that we want. If that fails, we get what we can. From this bill at this point, I have gotten what I could, on behalf of the people that I'm trying to represent. And the vast majority of them would not be in my district, because not a lot of people that I'm aware of in my district do any hunting. I don't know about fishing. So I'm not going to vote in favor of this bill, which means I'm going to vote no. I hope my colleagues will vote no. I do not believe the Game and Parks Commission needs this money, and they have made that clear. But pursuant to my agreement with Senator Schrock...and with me, a deal is a deal...I have no amendments to offer, I have no motions I'm going to make. I never agree with somebody to muzzle myself and say I will not comment on a bill. But this is the only commenting I intend to do on General File. If we get to Select File...we will get to Select File. And if other matters arise that I think I should comment on for the record, I will do so. But after I make these comments, I will not have anything further to say on this bill on General File. But my last words will be, I'm going to vote no on this bill; I hope others will join me, so that it will not advance. Thank you, Mr. President.

SENATOR CUDABACK: Thank you, Senator Chambers. Seeing nobody else wishing to speak, Senator Schrock, did you wish to close?

SENATOR SCHROCK: Mr. President, members of the Legislature, I'll be brief. This bill would increase fees for Game and Parks to \$20, from the present \$14, on an annual permit. The permit is on the vehicle; it is not on people. I believe they will probably staircase this in, although it will be left up to the Game Commission when they would do it. It would authorize them to increase the daily park fee from \$2.50 to \$3. And this is all due to the actions...or, it all would depend upon the actions of the Game Commissioners. I believe it is necessary for us to maintain our parks and recreation areas in a manner that Nebraskans can all be proud of, and to present them to people, that people will want to return when they go to these facilities. So with that, I would ask for your consideration on this bill. And I would conclude my remarks.
